

MAGNA

PROFESSIONAL FLATBED CUTTING SYSTEMS

robust - modular - versatile

MAGNA sets new standards in automatic cutting. With the latest German drive technology, robust and modular design, you cut with Hasler MAGNA at the highest level.

Due to the versatility and large selection of tools, the MAGNA cutter can be used in all sectors of cutting applications.

Sustainable investment, regardless of whether it is tools, peripheral devices, extensions or detection and marking systems, MAGNA with all its options can be retrofitted at any time and adapted to the respective material and production application.
